

Power pallet trucks

1.6 – 2.0 tons

quality | reliability | value for money

 **MITSUBISHI
FORKLIFT TRUCKS**

warehouse – it's what we do

It should come as no surprise to hear that Mitsubishi can meet all of your warehouse needs. The engineering excellence and built-in reliability that have made Mitsubishi counterbalance trucks the world's favorites are found equally in our complete range of warehouse products.

What's more, every Mitsubishi warehouse or counterbalance truck comes to you with an added bonus: our unique standard of local support. In other words, we offer the perfect combination of trustworthy products and trustworthy people... working for you.

friendly, expert advice

Think of your local dealer as a friend who understands your business, the area you work in and the particular problems you face. A friend with expert knowledge, who is always ready and willing to help. Trust us to deliver precisely the right package of models, options, finance and after-sales support.

responsive support

We are totally committed to keeping your truck and your business working. Our factory-trained engineers are your 'local heroes' – ready to go into action any time, day or night, to solve your problems.

Equipped with the latest, rapid mobile facilities, and backed by unbeatably efficient parts supply, they ensure that our reliable trucks really do give you non-stop productivity.

quality construction

The legendary reliability of our trucks owes much to the unique skills of the craftsman engineers who hand-build them.

We also make sure to use the right materials and components – and enforce strict quality control.

So you can see why we have the confidence to offer such exceptional warranties. And the high residual values of our trucks prove that users are confident too.

user-focused design

Forget about gimmicks. Our trucks are designed for the real world, to do exactly what you want them to do: get the job done, save you money and maximize your profits. Using advanced production methods and technologies, we build intuitive 'handling', high energy efficiency and low maintenance requirements into every truck.

PREMIA ES

pedestrian power pallet trucks

1.6 – 2.0 tons

PBP16/18/20N2

Market-leading lift height

Quick and easy charging

Optional ergonomic levers

Easy service access

Exceptional performance... in virtually any condition

options include

- Choice of drive and load wheels for different applications
- Sealed built-in charger
- Pallet entry and exit rollers
- Wide variety of fork dimensions
- Cold store modification (class III, -35 °C)
- Load backrest
- Multifunctional display with hour meter
- Equipment bar for mounting accessories

capacities

- High-efficiency electronic system features waterproof components for maximum reliability – even in damp conditions.
- Robust forks with welded construction, and rounded tips for effortless pallet entry, provide extra strength and durability.
- Market-leading lift height of 135 mm allows easy handling on steep ramps and loading docks, even with damaged pallets.
- High stability is ensured by use of two linked castor wheels – next to the central drive wheel – in addition to the two load wheels.

Developed for non-stop performance in the most challenging environments and the tightest spaces, PREMIA ES pedestrian power pallet trucks offer you a comprehensive range of transfer possibilities. Whether you are upgrading from a hand pallet truck, or doing short shuttle work, there is a PREMIA model which will meet your needs.

High stability and an excellent lift height allow easy operation even on uneven surfaces. Outdoor operation is possible in virtually all weather thanks to protection of the chassis and electrical systems against rain and splashing water. Low-maintenance design, with no vulnerable components, minimizes the chance of breakdown and lowers servicing costs.

For extra versatility, the operator may choose between two performance modes via the key switch. In all models the state-of-the-art, simple-to-use tiller arm design protects hands and places everything within easy reach for comfortable, controlled operation.

- Sealed chassis offers protection against dirt, dust and other particles to reduce wear.
- Oil-filled, sealed transmission is shock-resistant, quiet and requires little maintenance.

Versatile battery compartment

Quick-select performance modes

Informative display for built-in charger (option)

Optional accessory bar

when **reliability** is **everything...**

Like any product bearing the Mitsubishi name, our material handling equipment benefits from the huge resources and cutting-edge technology of one of the world's largest corporations. So when we promise you quality, reliability and value for money, you know it's a guarantee we have the power to deliver.

Every model in our comprehensive, award-winning range of forklift trucks and warehouse equipment is built to a high standard and is designed to keep on working for you... day after day... year after year... whatever the job... whatever the conditions.

To ensure your truck stays in constant productive action, we have a network of local dealers – hand-picked for their commitment to customer care... and backed by the Mitsubishi Forklift Trucks organization. No matter where you are, we have a dealer close by – ready and willing to meet your needs.

That friendly local service covers everything from identifying the perfect model and configuration for your application to providing competitive, flexible finance and maintenance packages, unbeatable warranties, long and short term hire, and highly responsive field service and repairs... as well as the industry's quickest and most reliable parts supply.

Only Mitsubishi can give you this combination of global engineering excellence and outstanding local support... only Mitsubishi offers you such a quality product at such an affordable price... and only Mitsubishi places reliability as high as you do in its priorities. Contact us now and see what we can do for you.

Performance specifications may vary depending on standard manufacturing tolerances, vehicle condition, types of tyres, floor or surface conditions, applications or operating environment. Trucks may be shown with non-standard options. Specific performance requirements and locally available configurations should be discussed with your distributor of Mitsubishi forklift trucks. Mitsubishi follows a policy of continual product improvement. For this reason, some materials, options and specifications could change without notice.
